

Response to Gasoline Tanker Emergency Incidents

April 09, 10, & 11 9:00am-Noon
(class repeated each day)

**Tallahassee Fire Training Academy
2964 Municipal Way
Tallahassee, FL**

Instructor – B/C Leigh Hollins (ret) Cedar Hammock (FL) FD

This course will address the various components & systems of the MC306/406 Gasoline Tanker, the most common Haz-Mat transport vehicle in the nation. Discussion items will include the chemical properties associated with the most common transported commodities (Gasoline & Diesel fuels) and an overview of the tanker's various safety features as well as a review of various incidents. A Gasoline Tanker Truck will be on site as part of the class (if available). Following the course, emergency responders will have a better understanding and working knowledge of the tanker features in the event of a leak, spill, rollover or fire situation.

**This is a FREE class provided by the
Apalachee Local Emergency Planning Committee**
